

5-35mm Sizefinder lightweight
in stainless steel and ABS plastic

NEW MEASURE TOOL FOR PLUMBERS AND MECHANICS

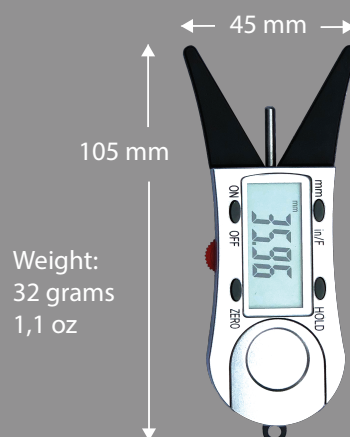

Never pick the wrong wrench again. A pocket tool that allows you to measure the diameter of any pipe, nut or circular object.

Sizefinder lightweight measures the diameters of bolts and pipes up to 35 mm and 1,4 inches in seconds. Converts automatically between inches, mm and fractions.

Both available as digital and analog version, steel and ABS plastic.
